

Dear Parents,

Beginning this school year, in our continuous efforts to provide the best possible care to our students, The Orme School is partnering with SchoolDoc.com.

SchoolDoc.com is an electronic health record system for schools, and will help us consolidate and integrate student health information into a centralized and secure location. Their system will give our nurses instant access to student health information, a key component in providing quality patient care.

The security, confidentiality and privacy of your student's personal health information will always be protected. Only The Orme School's health staff will have access to student health information, and the SchoolDoc.com site is secure, encrypted and password protected. Information regarding security can be found at <http://www.schooldoc.com/security>.

You will receive a "Welcome E-mail" from SchoolDoc.com with information about how to complete your student's health information.

-) Click the link in that email to set a new password for your SchoolDoc.com account.
-) Follow the instructions and complete the health history for your student. Alerts will appear for any missing required information.
-) Upload any required documents to your SchoolDoc.com account.
-) Return to SchoolDoc.com at any time to make changes/updates to your student's health information before school begins.

Please set the domain schooldoc.com as a 'safe sender,' to avoid accidental delivery to junk and spam folders.

We are excited to continually evolve – building safer, more productive and more efficient systems to create the best experience for you and your family. If you have any questions or concerns, please don't hesitate to reach out to me at jswiggers@ormeschool.org or call me at 928-632-1597.

I can't wait to see you and your student this fall!

Sincerely,

Jeff Swiggers, CEP, RN
Director of Health Services
The Orme School
